

VOLUME XLVI--NUMBER 164

the case, he deemed an inquest unnecessary.

A son of Rev. J. H. Mooers met with an accident at Franklin on the 4th. While standing near the stage stable, a piece of earthen pipe with which the chimney was "topped out" became loosened and fell striking him on the head and cutting him severely. Fears were entertained that he was seriously injured, but he is now out of danger.

Keenebec.

On Saturday last Mr. Frank S. Sever

teams, two drivers and one assistant, bailed out seven o'clock in the morning until about seven o'clock on Monday from Mrs. Dulon's coal yard to the County House and put into the cellar, sixty tons of coal, having each load weighed.

News.

A two-tenement building owned by Mr. Eben Coombes, at Vinlandhaven, was destroyed by fire at about 11 o'clock on Monday, the fourth. The house was occupied by Mrs. P. Stratton, who, with his wife, was away at Belfast at the time of the fire, and his furniture was nearly all destroyed. The building was last valued at \$750. A subscription was taken up the next day for Mr. Stratton by Mr. John Talbot, and an considerable amount was collected for the unfortunate family. Cause of fire not known.

Somerset.

Six or seven dead sheep.

In Fairfield there are 596 houses; four years old and upwards; 137, less than that age; 100; 459; 539; 605; 652 other cattle; 170 swine; 444 sheep.

James Oliver's little boy Ernest came to school in the mill pond at Fairfield last Thursday afternoon. Mr. George Yeaton rescued the lad.

The school money of Fairfield has been apportioned as follows: Dist. No. 1 has \$2590; No. 2, \$360; No. 3, \$180; No. 4, \$150; No. 5, \$150; No. 6, \$75; No. 7, \$150; No. 8, \$175; No. 9, \$150; No. 10, \$150; No. 11, \$150; No. 12, \$135; No. 13, \$135; No. 14, \$150; No. 15, \$75; No. 16, \$110; No. 17, \$175.

The store of J. B. & G. Mitchell, of Cambridge was entered one night last week, and the money drawer emptied of its contents, ten or twelve dollars in nickels and dimes.

The Esquimaux Sentinel says: Two men were drowned on Friday week. While at

The Canadian Government is engaging practical farmers to instruct the Indians of the Northwest in agriculture.

Drinking water fit for the human stomach is hard to find in Texas. New Englanders must remember this before they give up a pure article.

There is no secret about making good butter, no patent for the process, yet how small a proportion of the receipts in city markets command the highest price.

Don't lounge or talk where men are setting type. If you have business with the workmen transact it in as short a time and as few words as possible and leave.

A woman in New Jersey is so economical that the other night while her husband was a bed, she turned and made over his

Receipts of cheese in New York City for the past week, 116,668 boxes; previous week, 79,554 boxes; corresponding week last year, 156,336 boxes. Exports for the week, 95,203 boxes; same time last year, 124,575 boxes.

The grain and breadstuffs markets at the leading points of the country are as follows:

in firmness, owing to the continued bad weather prevalent in many parts of the continent and reports from Southern Russia of grasshoppers, corn beetles, etc. The heavy reports of locusts from India, which are now owing to the excessive rainfall in India, though not so prevalent as in the south of the continent, are nevertheless numerous there also.

of metal arranged in a reacting cavity. We are preparing a new paper at the moment for the press. We suppose few people think of the printing itself as one of the most exacted parts of a fine design; but such it is. It is a fine type of illustration that must be allowed if the

—It is a very rarely that type—undoubtedly two fountains can be set flowing or with-
out a great deal of trouble, though they try
to make it after the same standard. We
would, once in a while, of a wonderful piece
of cabinet work, or mosaic work containing
ten, twenty or fifty thousand pieces, the
maker of which has spent months or years
in producing it, and people go to see it.

and carefully fitted piece of work of the kind ever man does not compare with that which the printer does every day, for the minute is of detail and accuracy of fitting. The man who does the first is looked upon as an artist, and if a few hundred of his pieces are put in wrong side up, it is not observed in the general effect, but if the printer, in fitting together ten times as

another should be, or turns out the wrong way, everybody sees it and is amazed at the stupid carelessness of those printers.

[From the Kansas Journal]

MR. EDITOR: I remember reading of a *publicist* in Paris, who maintained a little stand on a street corner, and who trained a little spaniel to roll himself in the mud and then rub and bewig the hair.

The incident has its parallel in this city. The blackguard of the Standard has trained his pupils to roll in the filth of his editorial smut, and then go out and besmirch the character of decent and honorable men in the community. The Maine dirty whelp was looking and mowing at the heels of the Standard, and the Standard was giving the Maine whelp a lesson in the same line.

very much smiling and looking at the window, and said: "it hurt" to his mother.
